

Courageous Conversations

Advanced communication and conflict
resolution skills workshop

Turning Moment

Conflict Resolution Skills Training

Courageous Conversations

Courageous Conversations is a one day workshop designed for leaders, managers and staff who need to deal with challenging situations and behaviour.

We explore the skills and knowledge that will enable participants to confidently handle people who are being awkward, angry or aggressive.

To ensure the workshop is relevant, we use bespoke case studies, which are developed in discussion with you and cater for your organisation's specific needs.

The workshop will:

- Enable participants to increase their awareness of conflict triggers
- Explore which factors lie behind challenging behaviour and how to deal with it
- Cover the basic skills needed to prevent escalation
- Create opportunities for participants to share knowledge and experience
- Help participants to feel more confident in their decision making and actions
